

CHURCH BUILDING PROJECTS PROPOSAL

**Miracle Palace of Jesus Christ Church
and
Ceylon National Christian Federation**

Purpose (Background)

In 2003, I committed my life to God's ministry having gain popularity as a teacher, social worker, actor, and politicians within society.

With 25 years of social Experience, God guided me to serve in his ministry in Sri Lanka, where I have worked for the past 20 years. Drawing from this experience, I am continuing my church ministry and have received a new vision to establish the Ceylon National Christian Federation (C.N.C.F.).

The Ceylon National Christian Federation is a government-registered Christian organization. Many Christian churches in Sri Lanka are not recognized by the government, as it does not permit the registration of churches. Consequently, pastors and churches face significant challenges in carrying out God ministry in Sri Lanka. The C.N.C.F. has identified this issue and created an opportunity for all churches to register under its name. We are issuing ID cards and registration certificates to all member churches and pastors, which will add considerable value to their ministries and help enhance their public image.

Under the C.N.C.F., we have established a Bible study school and are offering free two-year bible study programs. Additionally, we are issuing BTH certificate to all undergraduates.

C.N.C.F. maintains connections with government agencies, private organisations, and NGOs that are committed to various social and welfare programs. Through these efforts, we aim to share God's love with our community.

Plan

The church started in a home on the 07th July 2003. At present, there are about three hundred members actively participate in our ministry. We are also welcome a large number of people from various backgrounds daily to our Church and federation to meet their needs.

Our ministry primarily focuses on:

- Children
- Youth
- Women
- Individual affected by various challenges

We operate all these ministries in a leased building.

Currently, about 300 pastors have joined the Ceylon National Christian Federation, and we have initiated a Bible school through our Federation, enrolling approximately 50 students in theology each year.

To continue our ministries in Sri Lanka (Ceylon), the following requirements must be fulfilled:

1. Permanent church buildings (For Colombo and Jaffna)
2. An office
3. A bible school building
4. A residential center
5. An auditorium

Benefit

Allowing a pastor to take a "Sabbath leave" for renewal can positively impact a congregation. It encourages active involvement in ministry, fostering deeper relationships among members. This experience helps cultivate compassion and strengthens their connection to God, empowering them to extend love to the community and act as agents of reconciliation in a divided world.

,We believe the congregation will be surprised by the diversity and involvement in church ministry, fostering a greater appreciation for the work needed to build a healthy community. Personally, I expect to benefit from this program through renewal of mind, body, and soul, which will help me reassess my ministry priorities. This Sabbath leave will ground me in Christ's love, enabling me to better support my congregation and keep us focused on God's redemptive love as our guiding principle.

Budget

	Rs.	USD	
To buy a Land in Colombo and Jaffna 20 Perches of Land for Colombo 20 Perches of Land for Jaffna	40,000,000.00	133,333.33
